Experience

Technical Lead Intern May 2026 – Sep 2026
The Unpopular View *Remote*

- Designed and developed the visual experience of a media platform, creating reusable UI components and a consistent brand presentation across episodes, articles, and editorial content
- Collaborated with editorial and growth team members to improve how video, podcast, and written content was presented and discovered by audiences
- Managed website updates, analytics, newsletter experiences, and technical handoff while translating creative ideas into polished digital experiences

Secretary & Philanthropy Chair Nov 2025 – Present
Lambda Chi Alpha Fraternity *Chapel Hill, NC*

- Designed chapter T-shirts and apparel, coordinating visual concepts, revisions, production, and promotion for members and chapter events
- Organized and promoted an American Red Cross blood drive through campus outreach, tabling, incentives, and chapter-wide participation
- Managed communications, attendance, scheduling, and organizational records for a 30+ member chapter while coordinating philanthropy initiatives

Shift Leader June 2021 – Aug 2024
Gong Cha *Charlotte, NC*

- Led teams of 5–7 employees in a high-volume customer environment, coordinating responsibilities and supporting day-to-day operations
- Resolved customer concerns, trained team members, and maintained a welcoming and efficient guest experience during peak hours

Projects

Selvacuts – Salon Booking & Brand Experience | *Web Design, React, Node.js* Dec 2024

- Designed and built a client-facing booking experience around the needs and identity of a student-owned barbering business
- Supported 50+ clients during launch and helped streamline scheduling while contributing to a 40% increase in business revenue

Silo – Collaborative Music Platform | *UI/UX, React, Java, AWS* Aug 2025

- Designed interface concepts and interaction flows for a collaborative music platform centered on sharing and organizing audio
- Combined visual design and software development to create an accessible experience for musicians and creative users

Additional Involvement

HackNC 2025 Participant Oct 2025
University of North Carolina at Chapel Hill

- Collaborated on the design and development of a web-based music sample organizer during a 24-hour hackathon
