Ryan Dang

(704) 763-3844 | rdang.dev@gmail.com | linkedin.com/in/ryo-dang-557293280 | github.com/ryod555

Education

University of North Carolina at Chapel Hill Aug. 2023 – May 2027
B.A. Computer Science, Communications, Information Systems Minor | ***GPA**: 3.5/4.0* *Chapel Hill, NC*

Coursework: Data Structures, Databases, Systems, Networks, Computer Architecture

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, C, SQL, Bash
Backend & Frameworks: Spring Boot, Node.js, Express.js, React, Next.js, REST APIs
Cloud & DevOps: AWS (EC2, S3, RDS, Lambda), Docker, GitHub Actions, Vercel, Cloudflare, CI/CD
Databases: PostgreSQL, MySQL
Systems & Tools: Linux/Unix, Git, Postman, DNS, Google APIs, Jira

Experience

Technical Lead Intern May 2026 – Sep 2026
The Unpopular View *Remote*
- Owned production architecture for a Next.js/TypeScript media platform, including Vercel deployments, Cloudflare DNS, environment configuration, and third-party integrations
- Built scheduled GitHub Actions pipelines integrating YouTube and Google APIs to automatically synchronize site content and reduce manual publishing workflows
- Implemented newsletter automation, analytics, SEO, and technical handoff documentation while managing credentials, APIs, and deployment configuration

Shift Leader June 2021 – Aug 2024
Gong Cha *Charlotte, NC*
- Supervised and coordinated a team of 5–7 employees, optimizing task delegation and operational efficiency in a high-volume environment
- Improved workflow processes during peak hours and handled customer service interactions

Projects

Silo – Collaborative Music Platform | *Java, Spring Boot, AWS, React* Aug 2025
- Built Spring Boot services supporting audio storage, metadata management, and REST API access for client applications
- Designed cloud infrastructure using AWS S3, RDS, and Lambda to support persistent storage and media-processing workflows
- Containerized backend services with Docker and integrated PostgreSQL-backed APIs for persistent audio metadata and file management

Selvacuts – Student-Owned Salon Booking Site | *React, Node.js, Express, MySQL* Dec 2024
- Built and deployed a full-stack booking system exposing REST APIs for scheduling, availability, and appointment management
- Automated booking workflows for 50+ clients, contributing to a 40% increase in business revenue

Clubs & Involvement

Secretary and Philanthropy Chair Nov 2025 – Present
Lambda Chi Alpha Fraternity *Chapel Hill, NC*
- Managed chapter records and communications for 30+ members and coordinated the design and production of chapter apparel
- Organized and promoted an American Red Cross blood drive while leading fundraising initiatives supporting Breakthrough T1D

HackNC 2025 Participant Oct 2025
University of North Carolina at Chapel Hill
- Developed a web-based music sample organizer in 24 hours using React and AWS
